I want to clarify the bus stop that Guillermo is referencing, but if it's the bus stop at CVS, would we be in favor of improving it with a shelter? I think this might be much improved over the existing conditions, which we have all pulled our hair out over. Thoughts please so that I can respond to Guillermo.

(Guillermo is the Director of Operations for CBS / Decaux, the City's bus shelter contractor. I'd think he can make this happen quickly if we say "ok." I met him when we were trying to get that corner improved several years ago.)

Thanks for remembering me Guillermo. Is the bus stop location EB Manchester WS Sepulveda? At CVS? I want to be sure that we are on the same location.

Donald:

Hope all is well? We have an Attached Narrow Shelter (green color) available for a bus stop on EB Manchester NS Sepulveda Blvd. The sidewalk is very narrow (8'5") there and I remember from years ago that the neighborhood group had wanted a shelter there. Let me know if you believe the group is still interested? If not, I can install it at another location.

Thank you,

Guillermo
